Dr. Boeve Extols Washington

Exquisite Tribute in Washington's Birthday Address to Fellow Klansmen by the Minister of the First Reformed Church.

Dr. Boeve was the keynote of the birthday meeting held this week at the Governor Clinton Hotel as usual. The songs selected by Paul Zucca were all of a highly national character and were sung with much fervor and enthusiasm by the members. Particularly was the old standby of "The Star-Spangled Banner" rendered so heartily that it even moved some of the non-members to sing a note or two.

In keeping with the spirit of the week the program committee had selected one of the club's own members to bring to Klansmen a message of the times. This was done by the Rev. Dr. Lucas Boeve in his very able address, which was one of the finest that it has been the privilege of the club to hear for many a day. Dr. Boeve started with a question, "Why do we celebrate Washington's Birthday, and answered it by saying because we owe so much to our national heroes. Indians and patriots have no such holidays because they have never produced any heroes that fought for great principles or ideals. That nation is great that has the greatest number of heroes to commemorate, heroes who strove, suffered and died for principles that enriched human life. What inspiration we get from the fascinating story of Washington's life and his achievements!

Born on a farm in Virginia, on a beautiful estate called Wakefield, reared in a home of culture and refinement and of pure religion, though losing his father at an early age George had an unusually accomplished mother and a step-brother much his senior, educated in an English University, a young man whom George worshipped. In his whole, some, genuinely aristocratic environment, was reared the youth destined to become the "Father of his Country."

He had a genius for the practical, the utilitarian as well as for the ideal, the beautiful. He loved to organize his playmates into a company of soldiers and subject them to rigid tactics and discipline, early revealing the excellent leadership in the handling of men.

He was a student of mathematics. He was accurate, painstaking, thorough in all he did. On the large estate comprising thousands of acres he had an unusual opportunity to bring into play that talent for surveying that distinguished him as a boy of only 16 years. At 21 he was the chief surveyor of the county and coupled with that daring and that courage so characteristic at this age, who but George Washington should be the one man to be chosen to carry a message to the French general a thousand miles through forests and mountains to the very region of the Great Lakes?

Dr. Boeve then hastily touched upon the French and Indian Wars, leading up to the great Revolution, in which Washington despite his modesty, despite his aversion to publicity, but now trained in the art of government and statesmanship as well as in surveying, scouting, pioneering and generalship became easily the outstanding figure upon whom all eyes were turned as the one man to carry out the ideals of independence and freedom as these thrived in the hearts of the true patriots.

The speaker then compared conditions Colonial with those of the present day. Ten years ago war was declared by the United States and we had over a hundred million of people; a country of unlimited resources. Congress voted billions in money; in a few months we passed a universal draft law and soon had more soldiers under arms than the total number of inhabitants of the colonies of the Revolutionary period. We had a navy second to none, every department of the great government highly organized and concentrating its every effort on winning the war. And the action along every line was carried on in a spirit of unanimity that was like crusading.

Now compare this resourcefulness, this efficiency, this great wealth in provisions, equipment and materials with the poverty, the lack of co-operation and unity, the utter absence of a really centralized government, the lack of unity among the colonies, the presence of Tories within the ranks—and we get an idea of the enormous task that confronted our hero. And oh, how wonderfully he met this great challenge!

And following his little army of poorly clad, poorly equipped, half-famished men as they organized in Boston, then withdrew to New York, then around Champlain, Quebec, then into New Jersey, then Pennsylvania and Maryland with its Valley Forge and our hero looms up like Cincinnatus of the days of Rome. He stands for pure thought, for liberty, for emancipation, for Washington stands for the incarnation of civic devotion and consecrated patriotism. He laid his achievements, his abilities, his possessions, his life upon his country's altar. Think of the modesty, the poise, the generosity, the dignity, the devotion, the vision that radiates from that wonderful personality that laid the foundation of the great republic of the world.

As we sleep ourselves once again in that atmosphere of our Colonial days with its pioneering hardships and privations we are impressed with a spirit of consecration and de-

Train Robbers Get \$300,000 Pay Roll

Chicago, Feb. 25 (AP).—Three payrolls reported to total \$300,000 were taken from a Grand Trunk local train today by five robbers who stopped the train near Evergreen Park, south-west of Chicago, bombed the rear end of the mail car and made their escape.

The robbers flagged the train at St. Mary's Cemetery, one quarter of a mile from Evergreen Park. Two mail clerks and two government agents were in the mail and express car.

Firing more than 50 shots to intimidate the guards and about 100 passengers, the robbers entered the mail and express car, blew the safe, scooped up the currency and made their escape in an automobile parked nearby.

The payrolls were those of the Buda Motor Works, the Ingalls Shepherd Works and the Whiting Corporation, all of Harvey. Armed guards were at the station at Harvey waiting to escort the payrolls to the plants when the train pulled up, shortly after the robbery.

Later officials of the three companies robbed said they paid by check and any money obtained in the robbery was consigned to Harvey banks. The officials of one of the banks estimated his bank had lost about \$53,000 and that another bank there had lost as much more. There was a similar robbery at the same point a year ago in which about \$95,000 was obtained.

The Federal Reserve Bank here reported it had a shipment of \$80,000 to the First National Bank of Harvey on the Grand Trunk train. There was no other Federal Reserve Bank money on the train.

Three Big Mergers In the Making

New York, Feb. 25 (AP).—Three huge mergers in the banking, moving picture and motor truck fields, involving aggregate assets of \$1,159,000,000 were reported in the financial district today as in formative stages.

Consolidation of the Bank of America, the Bowery and East River National Bank, the Commercial Exchange Bank, the Manufacturers Trust Company and a group of smaller banks controlled by interests affiliated with the latter company was said to be imminent.

Diphtheria Clinic Monday

Another of the series of free diphtheria clinics will be held at the board of health rooms in the Central Fire Station on Monday afternoon from 3 to 4 o'clock. Dr. Daniel Connolly, health officer, is in charge, assisted by Mrs. Mary O'Neill, city health nurse. These clinics are proving very popular and many parents are taking advantage of them to have their children immunized from diphtheria.

ROMANOS ARE HOLDING REUNION IN THE COUNTY JAIL

Dorothy Romano, arrested Thursday in this city on a charge of being one of the operators of the old Flatbush school house at the time it was raided by Troopers and the sheriff's men, was held for the grand jury Friday on a charge of operating a disorderly house. Dorothy and her husband, James, were both arrested Thursday. He was held for the grand jury on being arraigned before Justice Jennings in the town of Ulster but she demanded an adjournment to secure counsel. Her case was adjourned until 2 o'clock Friday afternoon, when she was held by the justice for the action of the grand jury. No bail was fixed and both are in jail.

WEATHER OUTLOOK FOR NEXT WEEK

Weather outlook for the week beginning Monday.

North and middle Atlantic states: A period of rain or snow Tuesday or Wednesday and again toward end. Cold at beginning with mostly moderate temperatures thereafter.

rotation to country that is almost sacrificial, holy.

Then we think of our present strength and greatness as a nation, our prosperity and achievement, our comforts and luxuries, our emphasis upon education and upon that which brings comfort and power, pleasure and ease and a prayer rises within us, oh, for more of the spirit of our fathers in this land of millions; for more of that sterling virtue that never truckled to ambition or to a mercenary consideration; more of the moral heroism of a Washington and Jefferson and Hamilton and Putnam and Adams and Patrick Henry and Clay.

With all our prosperity our nearly four hundred millions in wealth, our ambition for bigness, big buildings, big navies, big battleships, big corporations, big engineering feats, let us not get away too far from the simple life, the strong morality, the sterling worth, the pure and sincere religion, the idealism, the emphasis on character, noble manhood, great statesmanship, unselfish devotion to one another and to country as exemplified in George Washington.

Young Blackmer Teapot Witness

Washington, Feb. 25 (AP).—Unable to obtain the testimony of H. M. Blackmer, a moving spirit in the Continental Trading Company oil transaction, the Senate Teapot Dome committee today called his son, Myron K. Blackmer, of Denver, a vice-president of the Midwest Refining Company.

The son told the committee that he knew his father had been negotiating with the late A. E. Humphreys for oil from his Texas fields, which the Continental subsequently bought and resold to the Sinclair Crude Oil Company and the Prairie Oil and Gas Company at an enormous profit.

"The Standard Oil of Indiana, which owns all of our stock, was short of crude at this time," Blackmer said.

When his attention was called to the correspondence between his father, who is an exile in Europe, and Robert W. Stewart, dominant figure of the Standard Oil of Indiana, Blackmer said he had no doubt saw some of the correspondence at the time.

"My knowledge about the negotiations is only general, as I had no part in them," Blackmer said. "At one time my father talked to Colonel Humphreys about buying his whole property."

"When did you learn that the oil was being bought through the Continental Trading Company?" Senator Walsh asked.

"My father told me he had an interest in the Continental Company and had made about \$750,000 out of the company," Blackmer replied.

"Was it before your father went to Europe?"

"Yes, sir."

"When did your father go to Europe?"

"In February, 1924."

That was immediately after the Senate committee had uncovered the scandal which led to so many civil and criminal suits in the courts.

"Tell us what your father told you about the Continental," Walsh pursued.

"He did not tell me very much. I had heard of the Continental before. He told me to keep the matter confidential as he had not decided whether he would keep the profits as there was the possibility that the Midwest might seek to recover them."

"Were your father and yourself then both officers of the Midwest?"

"Yes, sir."

ESTATE OF THOMAS HARDY ESTIMATED AT \$445,000

London, Feb. 23 (AP).—The will of Thomas Hardy, writer, as published in the Daily Mail today, provides that if his widow should remarry the annuity granted her shall be cut in half.

The will disposing of an estate of £91,000 (about \$445,000) bequeaths to the widow, Mrs. Florence Emily Dugdale Hardy, the novelist's household and personal possessions and an annuity of £600 (\$3,000).

Mrs. Hardy, in whose arms the writer died at the age of 87 on January 11, was forty years his junior. Having achieved some success as a writer of children's stories, she abandoned her career when she married the novelist in 1914 after the death of his first wife.

The will also provides that the widow is to have all the royalties and other proceeds from Hardy's writings for her life time and the use of Hardy's home, Max Gate, Dorchester.

Hardy signed the will on August 24, 1922, when more than 80 years old. He had no children.

CAROL SAYS HE WILL BE ON THE RUMANIAN THRONE

Nice, France, Feb. 25 (AP).—Former Crown Prince Carol of Rumania is being quoted by friends here as having declared that within two months he will be on the Rumanian throne, which he renounced when he eloped with Margda Lupescu.

Foreign Minister Titulesco of Rumania, a member of the Bratianu cabinet which has always maintained that every effort will be made to keep Carol from returning, is now sunning himself at Mentone, a few miles away from Carol. Carol has been devoting himself to the night life of the Riviera.

In reply to rumors that he could see Titulesco, Carol said:

"Titulesco would have seen me Thursday, but I did not wish to see him."

HINKLER ARRIVES SAFELY IN SYDNEY, 24 HOURS MISSING

Sydney, Australia, Feb. 25 (AP).—Bert Hinkler, who flew with clock-like regularity more than 11,000 miles from England to Port Darwin, arrived at Camooewal, Queensland, today after being missing for more than 24 hours.

Hinkler started from Port Darwin yesterday morning on a 900 mile flight to Cloncurry. En route he was forced down by a dust storm. He made a good landing at Camooewal and his machine was working well.

Hinkler intends to continue his flight to Cloncurry early tomorrow.

BUFFALO WEATHER COLDEST OF THE WINTER

Buffalo, N. Y., Feb. 25 (AP).—A new low temperature mark for this winter was established here this morning when the mercury dropped to two degrees above zero. The previous low mark was five degrees.

Lindbergh Tests Motor Using No Fuel

Operated Electro-Magnetically, the Story Runs, but Source of the Power Is Not Stated—Test Said to Have Been Successful.

Detroit, Mich., Feb. 25 (AP).—The Detroit Free Press said today that an airplane motor operated electro-magnetically, without gasoline or other fuel, has been tested successfully by Colonel Charles A. Lindbergh and Major Thomas G. Langphier, flight commander at Selfridge Field.

The motor, which might revolutionize the entire scheme of automotive power, was the invention of Lester J. Hendershot, of Pittsburgh, the article said.

Colonel Lindbergh, Major Langphier and D. B. Barr Peat, of Pittsburgh, business manager for the inventor, conducted a test of the motor yesterday at Selfridge Field, and the Free Press reported it was "successful in every respect."

No direct authority for news of the invention was given other than it emanated from one of the four men—Colonel Lindbergh, Major Langphier, Hendershot and Peat. The first two, reached early today, refused to comment. Reporters were unable to find the inventor and his agent.

The Guggenheim Foundation for promotion of aeronautics, the article said, has arranged for an immediate demonstration of the motor, which is said to be based on the principle of electrical magnetism, as applied to the rotary motion of the earth.

The newspaper account continued: "The model of the motor has been guarded with the greatest care since it was brought to Selfridge Field by Hendershot and Peat. Late yesterday was taken to an experimental hangar where the famous transatlantic flier aided in a test that exceeded even the hopes of the inventor."

"So far as experiments have been made, the power is only applied to use in airplanes. Later developments are planned to extend the scope of operation to other fields of locomotion."

"No other facts were obtainable other than that the machine runs on electrical magnetism as applied to the rotary motion of the earth. It is in no sense connected with a perpetual motion idea, although recent tests have proved it will run for long periods."

"On the test blocks yesterday it was learned the motor turned up 1,800 revolutions per minute. It would run at this rate for between 2,000 and 3,000 hours before it became necessary to recharge the magnet center."

Peat, according to word from Pittsburgh, is field manager of the Pitts Airport at McKeesport, Pa. Little was revealed regarding Hendershot.

It is understood here that only an experimental model of the motor has been constructed.

William B. Stout, president of the Stout Air Service, Inc., and designer of the all-metal type of transport planes being built by the Ford Motor Company, said he saw Hendershot's model in operation in Pittsburgh three weeks ago.

"The demonstration was very impressive," he said. "It was actually uncanny. I would like very much to see how a large model, designed to develop power enough to lift an airplane, would operate."

Stout said the model he saw was about the size of motors used to operate vacuum cleaners and sewing machines and was similar in appearance to any small electric motor. "I was told," he said, "that the revolutionary feature was a hitherto unknown manner of winding armature. Hendershot said he had succeeded in winding the armature in such a way that it draws energy directly from electrical currents."

HELPED HIMSELF TO FOOD IS JAILED FOR 10 DAYS

Charles Buenau, who said he lived in Albany, was arrested Friday night by Officer Bowser, who charged him with disorderly conduct. Charles entered a restaurant on North Front street and proceeded to help himself to whatever struck his fancy in the food line without the formality of paying for it. This morning he was jailed for ten days by Judge Shufeldt.

Robert Parker, a stranger, was picked up Friday evening by Officer Entrott who charged him with disorderly conduct. This morning he was given a suspended sentence of five days in jail on his promise to leave the city.

THEY'RE ALL ALIKE TO THE PRINCE OF WALES

Melton, Norfolk, England, Feb. 25 (AP).—Conspicuous in the smart evening dress worn by members of the Quorn Hunt, the Prince of Wales and Prince Henry spent last night at a ball of the local branch of the British Legion, taking their partners in respect of social rank. Dry Law Men Open Office Here

Kingston Now a Center From Which Fearless and Stern Enforcement of the Volstead Law Against Violation Will Radiate, Not to Say Ennate.

The Federal prohibition enforcement department for the southern district of New York has taken offices in the Peaseenden building at 240 Fair street and will shortly open a branch office from which operations will be conducted. The southern district, in which Ulster county is located, includes territory south of Rensselaer county and Albany county on both sides of the river and extends back to Sullivan county and also includes Manhattan Island, 67 floors for the district are located in New York city but since much of the work of enforcement is done upstate a branch office has been located here. There will be an office force and the enforcement agents may work out of the local office and also report through the local office thus making it unnecessary for them to travel back and forth to New York city. It is expected that considerable time will be saved by eliminating travel.

A quantity of furniture was moved into the offices Friday afternoon and its installation was supervised by two men in charge.

MOTHER OF HARRIET M. MILLS DEAD AT 102 YEARS OF AGE

Syracuse, N. Y., Feb. 25 (AP).—Eight days after observing her 102nd birthday, Mrs. Charles DeBerard Mills, in her youth an ardent worker for the abolition of slavery and later active in the women suffrage movement, died at her home here last night.

After a serious illness about five years ago, Mrs. Mills regained her strength and had enjoyed good health almost to the day of her death. She retained her interest in public affairs and was a daily reader of the newspapers.

The work of her daughter, Miss Harriet M. Mills prominent Democrat, as member of the State Hospital Commission interested Mrs. Mills and was the subject of much discussion between the two when Miss Mills was at home.

Mrs. Mills was also survived by a son, Dr. W. Hough Mills and a grandson, Gerard Mills.

Mrs. Mills came to Syracuse at the age of 19. She and her husband, who has been dead for years, entertained at their home the abolitionist leader, William Lloyd Garrison, and such suffragist pioneers as Susan B. Anthony, Elizabeth Cady Stanton and Lucretia Mott.

FULLER THINKS IT HONOR TO BE ATTACKED BY REFLIX

Boston, Feb. 25 (AP).—To the attack made upon him yesterday in the United States Senate by Senator Thomas Heflin of Alabama, Governor Alvan T. Fuller has made a one sentence reply.

"I consider it an honor to be attacked by Tom Heflin," he told newspapermen.

Heflin charged that a recent expression of opinion by Governor Fuller, who is a Republican, that if elected President, was "feeble" with regard to Hoover, and inspired by "the Roman Catholic political machine" as regards Smith.

In the same statement, Mr. Fuller had advised the Democrats that if Smith were not nominated, the Democratic party might as well "reorganize as a free trade council of the Ku Klux Klan with Tom Heflin as head clique."

MISSING GIRL WORKING; HAD NOT BEEN KIDNAPPED

Philadelphia, Feb. 25 (AP).—Search for 15 year old Dora Schlechtman, who police feared had been kidnapped for ransom, ended in Atlantic City today, where the girl said she had been employed as a child's nurse since she disappeared from her home here on February 17. She was held as a runaway, pending the arrival of her father, Meyer Schlechtman, a poultry dealer.

The disappearance of the Schlechtman girl was followed by a search of three states. Several days later her father received a letter demanding \$10,000 for her return. Writing on the letter was said to have resembled that of the missing girl, but she told Atlantic City authorities she had no knowledge of the missive.

POUGHKEEPSIE HOD CARRIERS WANT RAISE

The International Hod Carriers' and Common Laborers' Union of America, Poughkeepsie Local No. 508, has formulated a demand for increased wages which has been presented to the Poughkeepsie Builders' Union. They demand 75 cents an hour minimum for hod carriers and 70 cents per hour for common laborers. Hod carriers now receive 70 cents an hour while the average for laborers is about 55 cents an hour.

Bishop Talbot's Condition Grave

Tuckahoe, N. Y., Feb. 25 (AP).—The condition of Bishop Ethelbert Talbot, of Bethlehem, Pa., who is ill at the home of his daughter here, was reported today to be grave. He suffered a stroke last week and failed to rally. The bishop is in his 86th year.

One Ship Lost; Other Missing

Dunsmuir, Kent, England, Feb. 25 (AP).—With no trace found of any survivors of the Italian steamer Alcantara, which was in collision with the Russian training ship Tovarish in the fog-shrouded strait of Dover yesterday, the Kentish coast was beginning to worry about the fate of the Tovarish today.

Although the Tovarish was reported to be trying to make Southampton there is considerable anxiety as to her present whereabouts since no wireless has been received from her since the SOS calls were sent out after the collision. The fear is expressed in some quarters that the Russian ship may have sunk with the 100 cadets she carried. Reports to shipping and other agencies, however, afford no confirmation for such fears.

Life boats from here and Rydy which went to the scene of the disaster returned this morning after a night long and futile search.

There is thought to be a chance that some survivors of the Alcantara may be aboard the British steamer Baron Douglas, which is said to have been in the vicinity of the collision and which has not yet reported to any point. Motor boats which set out after the SOS returned and their crews described the difficult and slow search they had made among the floating timbers and wreckage in the thick murky fog without getting in touch with any missing men.

Captain G. St. Clair, of the Sandgate coast guard station, who was in charge of the lifeboat search, said:

"I don't think that there is any doubt that the Alcantara sank but apparently the Tovarish did not go down."

Smith Shakes With Our Y Boys

Albany, N. Y., Feb. 25 (AP).—Whatever his presidential aspirations may be, Governor Smith is becoming proficient in the gentle art of hand shaking, an incident in the executive chamber disclosed today. Informed that a group of 25 Y. M. C. A. boys from Kingston was waiting to meet him, the governor dashed out of the door of his private office, took exactly one-half minute to shake hands with the group and returned to his work.

Six Unmuzzled Dogs Gasocuted

Six of the unmuzzled dogs that had been caught by the dog catchers and impounded at Forsyth Park were taken to police headquarters on Thursday and placed in the gasocutor.

As a result of the activities of the dog catchers on Thursday three more unmuzzled dogs were caught and impounded. There are still to be found unmuzzled dogs on the streets—plenty of them.

NOVELIST AND SCENARIO WRITER SUE HARRY THAW

New York, Feb. 25 (AP).—The Evening World today says suit for breach of contract has been started against Harry K. Thaw by Arthur R. Lopez, scenario writer, as a result of Thaw's ventures as a motion picture producer.

Reeve and Lopez said they had been engaged by Thaw's manager to write twelve two-reel films at \$500 each dealing with an exposure of spiritualism. Later Thaw was induced to abandon this undertaking, they said, and launched on a plan to film the story of his own life.

Two of the spiritualism films were made at a cost of \$150,000, the World says, but these never were sold. Casts were engaged and a technical staff signed for both film ventures but Reeve and Lopez say they were paid for only the first of the series of twelve stories they wrote. It was not expected that their suit would be reached on the court calendar for at least a year.

ITALIAN MINISTER TO LEAVE AUSTRIA TONIGHT

Vienna, Austria, Feb. 25 (AP).—Giacinto Auriti, Italian minister to Austria, is leaving for Rome tonight to confer with Premier Mussolini respecting Austria's continued complaints regarding Italian treatment of Germans in the Tyrol.

His departure already has given rise to rumors of an impending break in relations between Italy and Austria.

Kingston U. C. T. Dine and Dance

In Celebration of 21st Anniversary of Organization, They Entertain Guests at the Governor Clinton Hotel—Addresses by Officials of the State Organization.

The twenty-first anniversary of the organization of Kingston Council No. 356, United Commercial Travelers of America, was observed Friday evening at the Governor Clinton Hotel when the traveling men and their wives and friends enjoyed a dinner and dance in the main dining room of the hotel. One hundred and seventy-five members and guests were served with an excellent dinner during which Zucca's orchestra kept the diners in a merry mood. Following the dinner dancing was enjoyed.

Among the guests of the evening were Grand Counselor Thomas Nicholson and Mrs. Nicholson of Rochester, Supreme Auditor Charles A. Hubbard, Columbus, Ohio; Grand Junior Counselor George H. Merkle and wife of Brooklyn; Grand Sentinel George L. Fisher and wife of Utica; Past Grand Counselor Ralph Davis and wife of Cortland; Past Grand Counselor W. G. George and wife of Albany; Past Grand Counselor John Dufols and lady of Newburgh; Past Grand Counselor James Montgomery of Newburgh; Grand Executive Committeeman William S. Lupton and wife of Newburgh; Grand Promotion Committeeman Henry A. Mehlman of Brooklyn and Grand Secretary Walter Wilm of Utica.

Opening the dinner with the singing of "America" Past Grand Counselor John Dufols of Newburgh gave the invocation and John C. Hummel, senior counselor of Kingston Council, acted as master of ceremonies. Introduced Past Grand Counselor Edward S. Morris of the local council who presided as toastmaster.

George L. Fisher, grand sentinel, spoke on "Looking Forward," and told of the prospects for the future of the organization. George H. Merkle, grand junior counselor, followed and spoke on "The Next Step," in which he outlined some of the things which the order could accomplish for the betterment and assistance of the membership.

Charles Hubbard, supreme auditor, spoke on "Instituting Kingston Council" and told of the early days of the local council.

"Marching On" was the topic of Past Grand Counselor Davis in which he outlined the ambitions of the order and told how some of the things could be brought about.

The last speaker of the evening Thomas Nicholson, grand counselor delivered a talk on "Our Order" in which he briefly outlined the history of the organization and the aims and advantages of the order.

The local committee which had in charge the arrangements for the dinner and dance was E. S. Morris, W. H. Niles and W. A. Schorheimer.

The affair was one of the outstanding successes of the history of the local council and the members enjoyed the dance program which followed the dinner. It was not until late that the very successful evening was brought to a close and the members and their friends and guests departed.

Officers of Kingston Council, United Commercial Travelers, are: John C. Hummel, senior counselor; Fred D. Hunt, junior counselor; Arthur R. Britton, past counselor; William C. Britton, secretary-treasurer; Homer D. Bowles, conductor; Harvey C. Slater, page; Martin Haelele, Jr., sentinel; Robert W. Secor, chaplain.

MAHARAJA'S WIVES OBJECT TO NEW MAHARANI

Bombay, India, Feb. 25 (AP).—Near relatives of the two wives of Tukoji Rao, former maharajah of Indore, today contradicted published reports that they had consented to his marrying Miss Nancy Ann Miller of Seattle, Washington. They also said that Tukoji Rao's stepmothers and sisters are opposed to the wedding. The junior maharani is still fasting, being overcome by grief.

It is understood some of the maharani's relatives are preparing to petition the Viceroy in regard to the marriage.

Pastel Yellow and Blue Enliven the Scene at Resorts

Yellow Crepe de Chine in Two-Piece Style Is Given a Feminine Touch by Means of the Wide Pleated Ruffles and Cuffs of White Crepe de Chine. The Self Belt Is Fastened with a Chanel Rhinestone Buckle and the Skirt Has Loose Pleated Front Sections. A White Felt Hat Is Worn.
A Rather Formal Note Is Seen in the Black Satin Bathing Suit with Deep Gilet of White Satin. The Short Coat Is of Black Wool Jersey Bordered with White and Appliqued with Triangular White Pockets.

Navy, Black and Gray for Sports and Gray, Black, and White for Evening Is the New Order of Things for Spring.

Paris—Although black is of first importance in painting any picture of the mode, gray shadows creep in. As spring approaches, there is a feeling for gray manifesting itself, not only for sports wear, which was indicated last season, but for evening and for the street ensemble as well. Gray seems an extraordinary

choice for evening, yet silver has long been a favorite, and silver is gray in effect. The tone is further carried out in furs, both for evening and day wear.
It seems to be a current fad to wear colors for one occasion that were formerly associated with another. From St. Moritz and other winter sports centers comes word of the vogue of both black and navy for skiing costumes.
This being the case, it is consistent with the idea to launch street colors for evening, and formal tones for sports wear. In woolens, in which category is included sweaters, gray and black, black and white, beige

and purple, all colors not heretofore associated with sports wear, are expressive of this idea.
The separate skirt, with which and all of these things, plus the velvet jacket, is worn, is not always pleated, although it is still more than likely to be. Skirts may be said to be either in group pleats or to be circular at the front and straight at the back. It is unquestionably true that the straight, narrow skirt is passe for every purpose, and it is significant that sports skirts have departed from straight lines.

Fads in Paris Include Large Handkerchiefs, Monograms, Pouch Powder Cases, and a New Development in Pouches and Perfumes.

Paris—The only sensational development in handkerchiefs is the man's size chiffon square, with lace corners. This type, while chic, is somewhat difficult to manage and has not developed into a phenomenal success. Such a handkerchief is worn knotted about the wrist, already overburdened with bracelets and a wrist watch, or crushed into the hand.
Handkerchiefs for less ceremonious occasions are not as conspicuous as formerly. They are invariably monogrammed, or else the name is written in full and embroidered.

to have it knitted into the wool jumper. Working the monogram in gold on crepe de chine is a rather formal interpretation of the idea.
The French are very much given to monograms, and invariably have their handbags, for instance, initialed, and also their handkerchiefs. At present monograms are large, and are usually done in pastel colors or even brighter ones.
There is nothing especially new to report in wauettes, unless it may be the little pouches made of Dresden or other silks, in which one keeps one's swan's-down puff and powder. The use of loose powder is a gesture toward chic, and so, by the way, is the use of solidified perfume, especially when one carries it about for application between dances or at other odd moments.

OUR DAILY PATTERN.

A Stylish Afternoon Dress.
5294. Lace and georgette are here combined. Figured silk, or crepe satin would also be attractive. The pattern is cut in 6 sizes: 24, 26, 28, 30, 32 and 34 inches bust measure. To make this design as illustrated in the large view for 28 inch size, will require 1/2 yard of 22 inch lining for the underbody, 1 1/4 yard of 46 inch material for the bolero, and 3 yards for the blouse and skirt. The width of the dress at the lower edge is 1 1/2 yard. A pattern of this illustration mailed to any address on receipt of

CHURCH SEWING CIRCLE CELEBRATES ANNIVERSARY.

A pleasant birthday party was held Thursday in the residence of Mrs. Herman Luedtke, Jr., 16 Mary's avenue, when the 20th anniversary of the Sewing Circle of the Livingston Street Lutheran Church was fittingly celebrated. A birthday cake bearing twenty candles adorned the festive table. The pastor addressed the members of the circle, speaking words of commendation on their achievements, and wishing them Godspeed in their future endeavors and a long career. The president, Mrs. Lina Heppner, who has served in that capacity for twenty years, responded in a few well-chosen words. The Sewing Circle has just closed another successful year of its activities. All of the officers of its past year were re-elected: President, Mrs. L. Heppner; vice president, Mrs. F. Wedemann; secretary, Mrs. Charles Petri; treasurer, Mrs. E. L. Witte. The circle is planning a larger celebration for its many friends after the Lenten season.

Muffs Are Again Back on Winter Fashion Card

Here is shown an American broad-tail coat with a sable muff to match. The muff, having been discarded by women sometime ago, has received a call to service this winter.

Time to Be Cautious

The commonly accepted explanation of the saying, "Beware of Greeks bearing gifts," is to be cautious in trusting persons who introduce their proposals or requests with gifts. The origin of the saying is a matter of dispute, but it is traced by some authorities to Virgil's statement, Aeneid, II, 40, "I fear the Greeks, even when they bring gifts." Presumably this referred to the wooden horse stratagem at the siege of Troy.

Time to Be Cautious
The commonly accepted explanation of the saying, "Beware of Greeks bearing gifts," is to be cautious in trusting persons who introduce their proposals or requests with gifts. The origin of the saying is a matter of dispute, but it is traced by some authorities to Virgil's statement, Aeneid, II, 40, "I fear the Greeks, even when they bring gifts." Presumably this referred to the wooden horse stratagem at the siege of Troy.

Whippets are also being shown by
Mr. Schryver.

Answer Jeweler Commits Suicide.
New York, Feb. 25 (AP)—R. Bort-
nowsky, Answer Jeweler, who was
arrested for smuggling at Rome,
Point, N. Y., a few days ago, com-
mitted suicide in Brooklyn last
night. It was learned today. Identifi-
cation of the body was made by
John Roberts, special agent for the
treasury department.

**Financial
and Commercial**

New York, Feb. 25 (AP)—Heavy
buying of Wabash common, which
scored 6 1/2 points to 65 on rumors
of competitive buying for control,
featured today's stock market. Price
movements in the general list lacked
uniformity, although rails showed a
pronounced upward trend and most
of the industrials pointed upward.
Speculative uneasiness over the
brokers' loan situation was reflected
in the persistent liquidation of cer-
tain stocks on all rallies, and the
hurry to unload on the first signs of
weakness in others. Airplane stocks,
which had soared to high altitudes
on buying, influenced by the success-
ful long distance flights last year,
broke sharply to new 1926 lows.
Wright Aeronautical falling six
points. Mack Trucks dropped four
points to a new low for the year
around 95. Adams Express collapsed
twenty points to 250 one one six.

The announcement that W. F.
Dickson was seeking proxies for
Wabash stock in an effort to get
representation for minority interests
on the board, brought a flood of buy-
ing into that issue which carried it
15 points above the year's low. St.
Louis southwestern advanced 2 points
and Western Maryland and Erie
common 2 each. About a dozen
other rails advanced a point or so.
Fox Film ran up four points on
the announcement that merger
negotiations were pending whereby
that company would acquire the
Stanley Theatres. Strength of Ameri-
can Sugar Refining, Howe Sound
and Oppenheim Collins contrasted
with the heaviness of Montgomery
Ward and Greene Cananea Copper.
The closing was irregular. Total
sales approximated 1,000,000 shares.

**Compensation
Awards Made**

New York, Feb. 25 (AP)—Heavy
buying of Wabash common, which
scored 6 1/2 points to 65 on rumors
of competitive buying for control,
featured today's stock market. Price
movements in the general list lacked
uniformity, although rails showed a
pronounced upward trend and most
of the industrials pointed upward.
Speculative uneasiness over the
brokers' loan situation was reflected
in the persistent liquidation of cer-
tain stocks on all rallies, and the
hurry to unload on the first signs of
weakness in others. Airplane stocks,
which had soared to high altitudes
on buying, influenced by the success-
ful long distance flights last year,
broke sharply to new 1926 lows.
Wright Aeronautical falling six
points. Mack Trucks dropped four
points to a new low for the year
around 95. Adams Express collapsed
twenty points to 250 one one six.

The announcement that W. F.
Dickson was seeking proxies for
Wabash stock in an effort to get
representation for minority interests
on the board, brought a flood of buy-
ing into that issue which carried it
15 points above the year's low. St.
Louis southwestern advanced 2 points
and Western Maryland and Erie
common 2 each. About a dozen
other rails advanced a point or so.
Fox Film ran up four points on
the announcement that merger
negotiations were pending whereby
that company would acquire the
Stanley Theatres. Strength of Ameri-
can Sugar Refining, Howe Sound
and Oppenheim Collins contrasted
with the heaviness of Montgomery
Ward and Greene Cananea Copper.
The closing was irregular. Total
sales approximated 1,000,000 shares.

Local Death Record

Frederick Roehl died in Chicago,
Ill., on February 15. The body was
brought to this city on Friday and
interred in the Hurley Cemetery,

Gaffney-Donnelly.
A very pretty church wedding was
solemnized at New Lebanon, N. Y.,
at high noon on February 20, when
Miss Gertrude R. Donnelly, daughter
of Mr. and Mrs. William Donnelly,
became the bride of Daniel A.
Gaffney, son of Mr. and Mrs. L. P.
Gaffney of Highland, N. Y., in the
presence of a large circle of relatives
and friends. The ceremony was
performed by the Rev. Father Nolan.
The bride was very attractive in her
traveling dress of tan georgette with
hat to match and carried a shower
bouquet of white sweet peas and
rose buds. The maid of honor, Miss
Toth Donnelly, sister of the bride,
wore blue georgette with hat to
match and carried pink and white
sweet peas. The best man was
James Gaffney, brother of the groom.
Immediately after the ceremony the
bridal party returned to the home of
the bride where a bountiful dinner
was served to the immediate fami-
lies. Later, amid a shower of good
wishes, the bride and groom de-
parted for a honeymoon to be spent
at Washington, D. C. They will
return to their newly furnished home

**Humane Society
Annual Meeting**

The annual meeting of the King-
ston County Society for the Prevention of
Cruelty to Animals was held Friday
afternoon at the offices of President
Amos Van Etten in the Opera House
building, Fair street. Reports of
the officers were made and the work
of the past year was reviewed. Dur-
ing the past year many cases have
been attended to from all portions
of the county. Members of the so-
ciety have personally investigated
and cared for many cases and the
usefulness of the society has been
greatly broadened by the coopera-
tion of the State Troopers who have
worked with and assisted the society
in many ways.

President Van Etten in his report
to the society called attention to the
fact that the society was incorpor-
ated in July, 1921, with the follow-
ing incorporators: John B. Allison,
John Forsyth, John W. Searing,
Charles F. Cantine, John B. Mc-
Entee, Guilford Hasbrouck, W. D.
Hale and Dr. A. P. Chalker. Of the
original members of the society, Dr.
Chalker is the only one surviving.
Col. John B. McKim was the first
president and Charles F. Cantine
was the second president. Presi-
dent Amos Van Etten, the present
president, was elected to that office
in October, 1927, and has since held
the office.

The report of the treasurer, Ward
B. Everett, showed a balance at the
end of the year's activities amount-
ing to \$237.

The officers who were re-elected,
are:

Amos Van Etten, president; Wal-
ter P. Crane, vice-president; John A.
Huhne, veterinarian; Sara A. John-
son, secretary and Ward B. Everett,
treasurer.

Directors re-elected for the coming
year are:

Mrs. George Coykendall, Mrs.
Francis J. Higginson, Mrs. John
Hauke, Amos Van Etten, John A.
Huhne, William C. Shaffer, Ward B.
Everett, Walter P. Crane, David
Burgovin, Raphael Cohen, Elmer
Palen and Mrs. John N. Cordis.
Mrs. Cordis was elected a director
to succeed Thomas F. Gray of Ellenville,
deceased.

**PORTUGUESE ELECTION
BY GENERAL SUFFRAGE**

Lisbon, Portugal, Feb. 25 (AP)—
The official gazette today published
a new law for the election of a presi-
dent of the republic by general
suffrage on March 25. The president
will be elected for five years and
may be elected for another five.
The candidate must be of Portu-
guese nationality and over 45 years
of age.

General Oscar Carmona has been
president of Portugal since Novem-
ber, 1926. He was a party to the
military upheaval in Portugal the
preceding June and became first
premier and dictator and then presi-
dent. Under the present law the
president is elected by the two
chambers of parliament with a man-
date for four years and cannot be
re-elected.

KINGSTON, N. Y., FEB. 25, 1928.

One of the most pestiferous persons a newspaper has to deal with is he who thinks anything pertaining to business or intended for publication must be addressed to some individual connected with the newspaper. The result is that whenever members of a newspaper staff are off duty a lot of mail accumulates, greatly to the disappointment of the senders, who would have saved themselves this disappointment had they addressed their letters properly—to the paper and not to a person. No personal "pull" is required to procure the publication of news in The Freeman and no one person has continual charge of any department of the paper. Gentlemen do not open one another's personal letters. Hence the delay resulting from addressing letters to individuals instead of merely to the department they are intended for.

Japan took a radical step on February 20, extending "manhood suffrage" to her people. That raised the number of voters at one stroke from 3,000,000 to 12,000,000. This is explained as resulting from the double shake-up of the war and the earthquake of 1923. Womanhood suffrage may be the next step. Democracy marches on in the Orient. Tokio is wise enough to do what Peking has refused to do. So Japan has peace while China has revolution. But Democracy, releasing new political energies, always brings new problems. The strongest voting section under the new suffrage law, it is said, was the tenant farmers. There will soon be a "farm bloc" at Tokio making ours at Washington look tame.

CENSORED WAR FILM.

The motion picture "Dawn," which by all accounts was a masterpiece, has been suppressed by order of the British board of censors. There has been no serious accusation that it is inartistic or immoral or untrue. It is said to depict accurately the history of Edith Cavell, the famous British nurse who was executed by the Germans in Belgium on a charge of espionage. That doesn't matter, say the censors, with considerable public support behind them. They object to the picture being shown on the ground that it would "revive war hatred."

It is just as well, in England and every other belligerent country, to soft-pedal anything which would do that. War hatred enough survives to threaten new wars, without going out of the way to do anything that would revive dying animosities and grudges. It may never be wise or righteous to tell a lie, but it is often wise and righteous to remain silent rather than tell needlessly unpleasant truth. The world at this time can stand a great deal of tactful silence. Historic fidelity in art is good, but peace is still better.

CLEAN CITIES SOON.

Coal is said to have been known in England in the reign of Edward I. in the fourteenth century, but the king forbade burning the fuel in London because of its smoke and offensive odor. Four hundred years later coal was banished from Paris for the same reason. Cities are still struggling with the problem, in a worse atmosphere than the world ever dreamed of before this industrial age, but with dawning hope.

It was predicted in the British House of Commons recently that within ten years there will be no "raw fuel" burned in Great Britain. That sounds like excessive optimism, yet the day is doubtless coming, and within a generation. And not only in England, but in America.

Industrial laboratories everywhere are now busy with the problem. Burning "raw coal" is now well known to be not only offensive but wasteful. The coal user wants only heat. He gets a lot of ashes that are a bother to dispose of. He gets smoke and dirt that soil and damage everything in the vicinity. He gets soot that chokes his furnace and pipes and gas which goes uselessly up the chimney. The smoke, soot and gas are all valuable. The problem is to extract them and other valuable contents from the crude coal and sell the ultimate consumer merely the heat-fuel he wants. Rapid progress is made in that respect. The internal combustion engine is

largely responsible for the progress. The quest for new oil and gas supplies leads to coal, which is enormously more plentiful than petroleum. Coal is found to be the richest source of raw wealth in the world, greater even than iron. When the chemists have completed their work, extracting their various kinds of riches from the coal and giving us for homes and offices and factories only the clean residue we need for burning, we shall have clean cities, and be saved a tremendous lot of laundry bills and face-washing, and have clear sunshine again, and the health that comes with cleanliness and light.

Hagen, Germany, has voted 250 marks to the girl baby born in that town just before the count closed and just in time to lift the population from \$9,999 to a complete 100,000 and thus include it among Germany's "important cities." Though that girl baby was so extremely "important" on the day of her birth, she is likely to need more than 250 marks as a dowry when she grows up if she is to prevent a richer maid from capturing the most personable young man of her acquaintance.

Ganna Walska lacks an enviable reputation as an opera singer, but she takes front rank as a gold digger. In divorcing her first husband she managed to pocket \$2,500,000, and now, in divorcing her second, she insists on \$3,500,000. Presumably she picks multi-millionaires in the first place, for nobody else could survive her rates of taxation.

THAT BODY OF YOURS

GIVING THE LUNGS AN AIR BATH.

One of the suggestions in a recent article on tuberculosis was the giving of the lungs an "air bath."

By means of air baths the lungs are bathed in air.

Now as a matter of fact your lungs are always being bathed in air, because the lungs are always in contact with the air; the lungs as I mentioned once before, are really outside your body proper.

If you could think for a moment of the lungs as a large paper bag which you have blown up, and then pushed down the throat into the chest cavity, what was the outside of the bag exposed to the air is now the lining of, or the inside of, the bag.

Similarly the inside or lining of the lungs is thus really in contact with the outside air, or in other words is outside the body.

This lining has very small blood vessels all about it, so that between the outside fresh air and the blood, the walls are so thin that gases can pass right through them, just as two different gases will pass through an animal membrane in a jar. Blood after being all around the body is poor in oxygen and rich in carbon dioxide, whereas fresh air is rich in oxygen and poor in carbon dioxide. Therefore due to differences in pressure an exchange is made through this lining. And so in cases of tuberculosis where the healing of damaged tissue and growth of new tissue is desired, the use of exercise to increase the flow of air into the chest is being advocated.

The exercise makes the patient breathe deeper and more often, thus not only stimulating the lungs, but the heart and other organs also. The exercises are to be taken in the open air when at all possible, or otherwise in a well ventilated room.

The only exception is where the patient has a temperature or where there is danger from hemorrhage or bleeding.

Now this is not really a new suggestion because it was discovered some years ago that simply putting weight on a tuberculous patient, and getting his temperature to normal, was not sufficient to enable him to return to his home and occupation.

By the use of exercise, starting up to five minutes daily, and increasing up to ten minutes, the patient was enabled to return to his work and remain at it.

However, using the expression, "giving the lungs an air bath," helps you to remember that as your lungs are always getting an air bath, that the air in which they bathe should be pure, and have the sunlight upon it. It should mean more of the outdoors for all of us.

TWENTY AND TEN YEARS AGO.

Daring History

In an objective sense history has been defined as "all we know about everything man has ever done, or thought, or hoped, or felt." Subjectively speaking, it may be regarded as a record of all that has occurred within the realm of human consciousness.

What Women's Clubs Do Do

President of General Federation Replies to Question Asking What Do Women's Clubs Do by Telling What They Do Do.

Washington, D. C., Feb. 25.—"What Do Women's Clubs Do?" is the title of an article by Mrs. John Dickinson Sherman, president of the General Federation of Women's Clubs, appearing in the March issue of Scribner's Magazine. The more than 2,000,000 members of this organization will be intensely interested in this recital of the influence of the woman's club on community life generally and of specific cases of remarkable accomplishment. Mrs. Sherman says:

"What would be the loss to your town if the woman's club ceased to exist? It is a question I frequently ask representative men in the different towns I visit. The answers have been varied, but the tenor of them has been the same—that activities for community betterment would lose leadership or impetus, or cease altogether."

"One man said: 'The bottom would fall out of all our town-improvement work'; another said practically the same thing and added: 'You see, when there's any job that seems too much for our chamber of commerce to handle we get the woman's club to tackle it, for they can put over anything they want to.'"

Mrs. Sherman recently sought through a questionnaire sent to the thousands of clubs comprising the Federation, to assemble evidence and proof of the worthiness of the woman's club movement. Clubs were asked to recite any notable achievement of a civic, educational, legislative or welfare character which they had initiated or "put over." Records of enormous and remarkable accomplishments soon flooded Mrs. Sherman's office and from these she culled a few of the most striking and colorful. This she follows with:

"The question 'What would be the loss to the members of your club and to the life of your community should your club cease to exist?' was answered with painstaking conscientiousness. Occasionally some one else—the mayor, the superintendent of schools, or the head of the chamber of commerce—was asked to answer because the women did not like to say what a calamity the dissolution of their club would mean to their town. The general character of the answer, by both men and women was, in the small towns practically the same—that organized, cooperative effort toward civic and community improvement would lose impetus and leadership or stop altogether. In many cases that the library would cease to exist or the free kindergarten stop, that school work such as health nurses, milk, hot lunches, etc., would have to find new sponsors, and that the social intercourse and stimulation from meeting and working with other women and men would be lost."

Pointing out the value and power of united effort, Mrs. Sherman says: "The home-equipment survey recently completed by the General Federation would not have been possible without the cooperation of individual clubs, yet no one club or State could have either initiated or carried out this gigantic undertaking."

"Another project of the General Federation was the establishment of the Federal prison for women at Alderson, W. Va., a national achievement conceived and led by the Federation and brought to fulfillment by the club women of the country."

"It can through its department heads bring before the State legislatures and individual clubs, the results of research, of study and of work of the leading men and women in the fields covered by the various departments. The passage of the Pure Food and Drugs Act was hesitatingly credited by the scientists most closely connected with it, to the nation-wide insistence of the women's clubs."

"The American club women have

attained their present position by their own efforts. As long as our women have the desire they now have for knowledge, self-improvement, and the best that can be had for their children, their homes, and their community, I think there is not the slightest chance of our women's clubs ceasing to be mediums through which women will seek the ends they wish."

"So long as the women keep their ideals high and their aims pure, just so long will the women's clubs continue to flourish, and make their influence felt throughout the whole country. Compared with other fields of human endeavor, the club movement shows a minimum of failures and a long roll of successes."

Tips For Taxpayers.

No. 12.

Salaries paid employees constitute one of the largest items of business expenses. To be allowed as a deduction such claims must conform closely to the wording of the statute, which provides for the deduction of "a reasonable allowance for personal services actually rendered." The test of deductibility is whether the amounts paid are reasonable and whether they are, in fact, purely for personal services. Money paid an officer of a corporation for which no services, or services inadequate to the compensation, are rendered is not deductible as "salary." Reasonable compensation is held to be an amount that ordinarily is paid by like enterprises in like circumstances for like services.

Bonuses to employees may be deducted by employers when such payments are made in good faith as additional compensation for services actually rendered, provided that when added to the stipulated salaries, the total does not exceed "a reasonable compensation for services rendered." When the amount of a salary of an officer or employee is paid for a limited time to a widow or heirs in recognition of services rendered by the deceased, such payments may be deducted.

The Urge to Fly

The transoceanic flights have aroused a tremendous wave of enthusiasm for aviation. The woods are full of would-be Lindberghs, Chamberlains and Byrds. The army air post at Mitchell Field, N. Y., is being deluged with letters from persons who would give all they possess for the chance of becoming aviation heroes. The pleas have come from boys on the farm and in the cities, from all ranks of society, from illiterates and from men who own imposing university degrees. Several have come from women. Of course, their ambitions are futile, for there are not enough places in aviation today for even the few who would be able to qualify. These are part of the great army of day dreamers who visualize themselves as heroes after the manner of every person who has accomplished something notable and glorious. This wave will recede, says the Philadelphia Record. But when it does, there will be left a less personal but more permanent interest in aviation throughout the country.

That young man who stole the plans of a new scout cruiser for our navy, and then confessed in order to save a fellow worker from unjust suspicion, seems to have a prewar mind. In view of the extreme improbability that there will be another great war for many years, if indeed ever again, it seems very unlikely that any European government would pay handsomely for secrets of naval construction, knowing well that the plans of 1927 would be perfectly useless in a few years. The money so expended would thus become a complete loss. The young man should have realized this before committing an act of se that may keep him behind the bars for a long time. Governments are not so keen about such matters as they were before 1914.

Lumber Dealers For Better Homes

National Organization Plans to Co-operate in Movement to Promote Home Ownership and Better Homes—Local Map to Organize Ulster County.

Retail lumber dealers of Ulster county, it was announced today, are organizing for cooperation with the National Retail Lumber Dealers' Association in a nation-wide movement to promote the ownership of homes and the keeping of present structures constantly in repair as well-improved property. The county and state organizations all over the country will be supported in their work by a national newspaper advertising campaign which is to run for four years and which, it is estimated, will cost \$40,000,000.

The Hon. Harcourt J. Pratt of the Kingston Lumber Company, has been appointed chairman of the organization for this county, by L. P. Lewis, of Cincinnati, president of the National Association. Mr. Pratt will appoint committees to carry on the movement in this county within the next few days. The county organization will operate under the direction of Walter R. Pettitt, of Huntington Station, chairman for New York.

"Build Now With Safety," is the slogan for the campaign, Mr. Lewis said in announcing the plans and purposes of the national association. "This slogan, which will be the central theme of one of the largest newspaper advertising campaigns ever conducted in the history of business, contains two messages which we expect to present to the American people for the next four years," said Mr. Lewis in his announcement. "One is the message of the freedom and security which ownership of a home brings to every family. Contentment, a larger measure of freedom from worry as to the future, the joy of ownership, the building of a better family life and a better community life, all come from possession of a home of your own. The value to the nation of the 'own your home' movement is recognized everywhere by economists, social workers, statesmen, for it promotes thrift and order and makes better citizens. Our industry proposes to give this movement a tremendous impetus.

"Coupled with this advocacy of home owning will be the thought of keeping that home at its best—of keeping it constantly in repair and of making improvements where these are dictated by prudence and the thought of increasing the value of the property. Thousands of homes in this country could be made far more livable and pleasant, and far more valuable, with a proportionately slight increase in the investment.

"That is our first message. The second is contained in the 'With Safety' half of the slogan. We hope to bring to all the millions of prospective buyers of homes, to the vast number of owners of homes that are in need of repair or improvement, and to all the industrial builders, a realization that safety and economy in buying building materials can best be obtained by dealing with reputable, well established retail lumber firms. To that end we have set up in our association a plan for the issuance to buyers of building material of 'Certificates of Safety.' These will guarantee to the purchaser, by a bond underwritten by the association, that the material he has bought conforms in grading with standards set up by the national association of manufacturers of that material, and in quantity with the dealers' invoice.

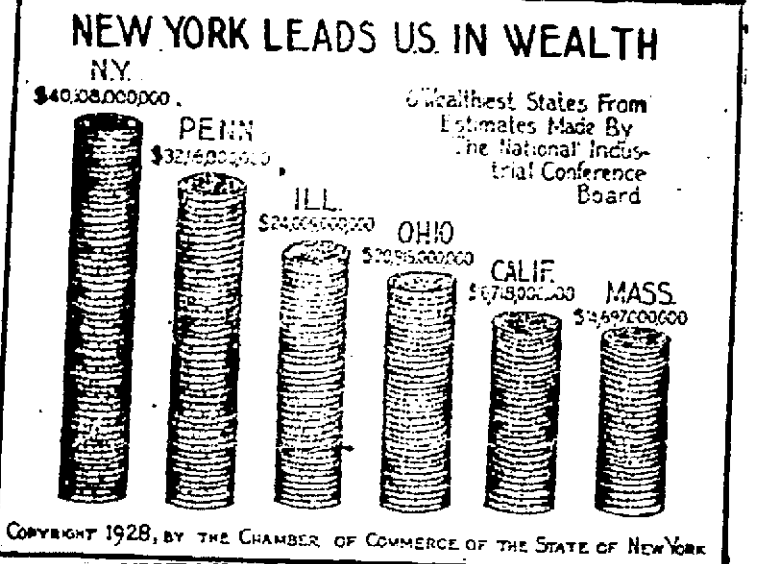

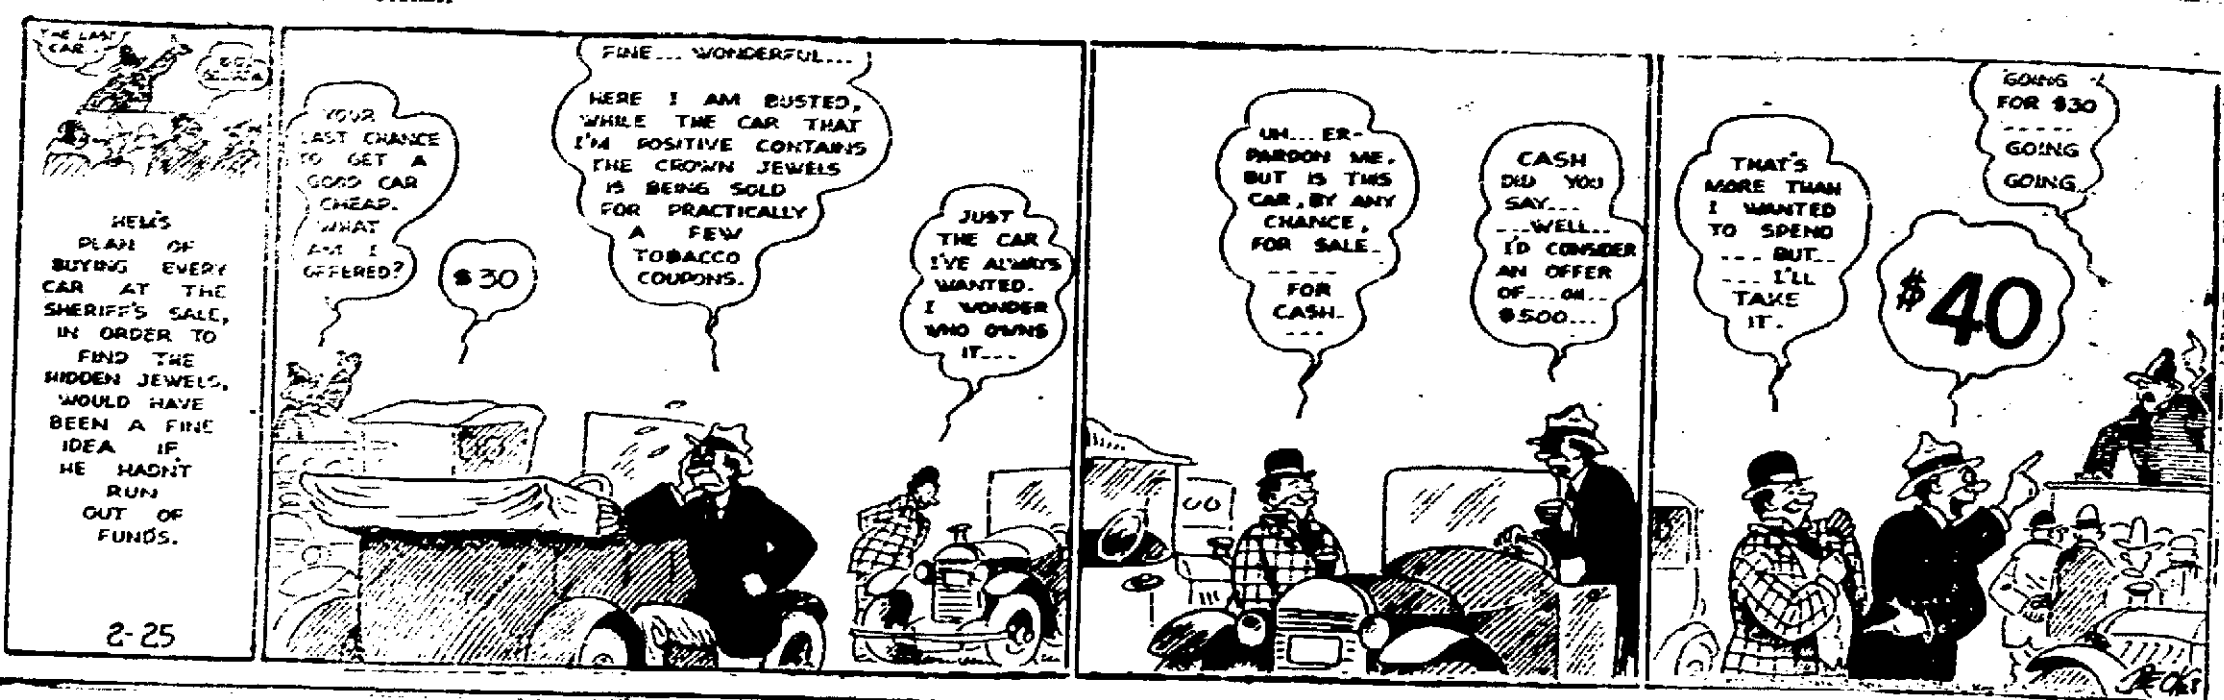

"In order that the buyer may know the dealers who are authorized to issue these certificates of safety, the association will supply to all cooperating dealers an electrically illuminated sign bearing the slogan

CAS BUGGIES—In The Nicotine.

New York may claim to possess 11.5 per cent of the total tangible wealth of the United States, according to the newest and authoritative estimates available.

The newest estimates to be completed was made by the National Industrial Conference Board and deals with physical forms of wealth as of 1925. According to the board's estimate, New York's aggregate wealth in that year was \$40,080,000,000 or more than that of any other state. For the United States as a whole, the board announces an estimate of \$348,442,000,000.

Pennsylvania ranks second in the wealth list with an aggregate of \$32,400,000,000 and Illinois third with \$24,500,000,000 while California is given fifth place with a total of \$17,900,000,000 and Massachusetts ranks sixth with \$14,597,000,000. These are the six foremost states in wealth standing. Their aggregate wealth is reported as \$118,562,000,000 or 42.6 per cent of the total national wealth.

The estimates made by the Conference board exclude gold and silver coin, bullion and credits and currency. Thus, the aggregate wealth from and improvements, the equipment of industrial enterprises and farms, livestock, railroad and public utility land and equipment, personal property, motor and other vehicles.

"Build Now With Safety," and colored metal emblems, likewise bearing the slogan, to be attached to the sides of their delivery trucks. "It is one of the established principles of modern business that this is the age of competition between industries. The National Retail Lumber Dealers' Association is sponsoring this campaign of education because it believes the cumulative effect of this tremendous volume of advertising will directly benefit every lumber dealer in the country by increasing the demand for the commodities he sells. There will be no lessening of the normal competition within the industry, but its individual units will cooperate to meet the competition of other businesses."

WEST HURLEY SCHOOL GIVEN FLAG BY S. OF V. AUXILIARY

Wednesday evening, February 22, the Ladies' Auxiliary of Tappan Camp, Sons of Veterans, journeyed to West Hurley to present a flag to the school at that place. A very interesting patriotic program was given by the children and an address, "The History of the Flag" was made by Mr. Browning, a World War veteran. Rose Mackey, patriotic instructor of the auxiliary, in presenting the flag made a very impressive appeal to the children to honor and protect the flag at all times. The teacher, Mr. Myers, and Trustee Van Etten received the flag with appropriate remarks. The ladies were given a ringing vote of thanks. Addresses were made by Mrs. Woolsey, Mrs. Robertson, Mr. Krom, Mr. Vredenburg and Mr. Roosa.

C. of C. Meeting

The Federated Chambers of Commerce of the Hudson Valley held their annual meeting in the Newburgh chamber of commerce rooms Thursday night. The meeting was largely attended and unusual interest was manifested in the proceedings. The election of officers for the year resulted in the choice of the following:

Officers Are Chosen.
President, George P. Hemmstedt, Hastings; first vice president, S. H. Goodrich, Newburgh; second vice president, G. E. Bates, Albany; treasurer, P. J. Carpenter, Jr., Dobbs Ferry; secretary, John Holzderber, Hastings; executive committee, E. Bates, Albany; James A. Kingston, A. R. Beal, Newburgh; Captain Robert Boett-

er, Yorkers; E. A. McCumber, Bear, A. V. S. O'Leary, New York.

To Join State Waterways. It was voted to join the New York State Waterways Association and re-appointing its members of Albany to be the representative of the Hudson Valley in the Legislature. The subject of the Hudson River was referred to the executive committee and the legislative committee, when subject to be considered at the next meeting of the chamber should be "The Pollution of the Hudson River" and will be open for discussion from the several angles that may present themselves. The treasurer reported \$2,150 on hand, and it was decided to take from the treasury \$1,000 and place it at interest.

When we can get pictures by radio, too, Graham won't have to break up his account of a sporting event to describe the scenery.

KINGSTON "Y" BOYS
MOTORED TO ALBANY

This morning about a dozen twenty-four boys of the Kingston Y. M. C. A., accompanied by Boys' Work Secretary Chester H. Hall, motored to Albany and were the guests of the boys' division of the Albany Y. M. C. A. The boys also expected to call on Governor Smith at the capitol. The trip to Albany and return is being made in a big auto bus. The party is expected back in Kingston this evening.

SAUGERTIES AMERICAN
LEGION RECEIVE PORTRAIT

A portrait of Corporal Adelbert Lamoureux, the first soldier in the town of Saugerties to lose his life in the World War, has been presented to the American Legion, Post No. 72, by Mrs. Annie Lamoureux of Blue Mountain, mother of the dead soldier.

News of the Day
In Wall Street

New York, Feb. 25.—The H. H. Bryan, president of the Chicago, Milwaukee, St. Paul and Pacific, saw an encouraging outlook for the reorganized road. He said on his departure for Europe that the agricultural situation in the northwest was the best for some time, with the probability that the St. Paul would do a satisfactory business.

There is every prospect that 1928 will be a good year generally for public utility companies, said Philip Gosler, head of Columbia Gas and Electric Company, on his departure for Cuba.

January production of lead by countries which furnish about 90 per cent of the world total was 135,438 short tons against 128,121 tons in December and 135,508 in January, 1927. The American bureau of metal statistics reports.

Gave Police Clue

Duncan Bruce, Lynbrook, N. Y., taxi driver, reported to the police that he had been forced to drive from that city to Albany at the point of a gun by two men who left behind a wad of newspaper clippings on the "human torch" murder in New Jersey in which Margaret Brown was burned to death.

PLAN TO ORGANIZE AN
CLUSTER COUNTY GUN CLUB

At a meeting to be held Tuesday evening at the court house, plans will be made to organize the Ulster County Gun Club. All interested in the formation of such a club are urged to attend the meeting. The idea of organizing the club was first brought up at the meeting of the Ulster County Fish and Game Protective Association held recently, at which time a committee was appointed to prepare plans.

900 Fans Saw Stellar Bouts

Joe Myers, Local Scrapper, Floors Jackson so Swiftly and so Often That First Round Ends the Bout—Other Scraps Were Also Good.

Approximately 900 fans who gathered at the arena Friday night, saw Joe Myers, local scrapper, score a technical knock over Ruby Jackson, of the 22d Engineers, New York City, who has fought four times in 1927 and the first time after which the bout was stopped by referee Frank Kelly.

The most colorful scrap on the card was put up by Kid Rash of the 369th Infantry and Charles Von Redon, 102d Medical, New York City, who fought for "Red" Edgerton, Von Redon won the scrap, which was the second round and went the scheduled six rounds.

The feature of the night was won by Frank Konchina, middleweight champion of the National Guard, who met the famous Larry Estridge, Frenchy Duck and Johnny Naccarato, local battlers, lost their scraps to Stanley Reid of Newburgh and Al Peace of New York City, respectively. Stanley Stevens of Newburgh topped the decision over Joe Grant of the 35th Infantry in a six rounder.

The fans were given a thrill in the curtain raiser when Joe Myers, Kingston boy, who weighed in at 122½, floored Ruby Jackson of the 22d Engineers, weight 125½, four times in the lone round of the scheduled four-stanza tilt. Myers showed that he packs a mean wallop and although the kayo was a technical one, Jackson would undoubtedly have come down for the count had the battle gone longer than the two minutes and two seconds. The first time that Jackson hit the canvas he stayed for the count of nine.

The second bout of four rounds between Johnny Naccarato of this city and Al Peace of the 102d Medical Regiment, New York City, furnished little action until the final round. The boys then mixed it up and were applauded as they left the ring.

Stanley Stevens of Newburgh, weight 136½, won over Joe Grant of the 35th Regiment, weight 135½, after six rounds of lively scrapping. Grant displayed a flashy attack and bored in throughout the rounds. Stevens landed a profusion of blows to the body that told on the colored fighter toward the end of the tilt.

Frenchy Duck, Kingston scrapper, who tipped the scales at 135½, lost to Stanley Reid, 134½, after a game six-round match, the last stanza of which was marked by a burst of speed in the opening minutes by the Frenchman. The burst of speed looked as though Duck might overcome some of the big lead piled up by Reid in the fourth and fifth rounds but the Newburgher soon slowed his up with several jabs to the face. Reid as well as the fans was surprised at the speedy action of the Kingstonian at the outset of the last round and lost his balance from a heavy wallop sent over by Duck. The spectators registered hearty approval of the bout by loudly applauding.

The six round-semifinal won by Charles Von Redon, weight 178, of the 102d Medical Regiment over Kid Rash of the 369th Regiment who tipped the scales at 118½, proved the most thrilling on the card. Rash took the count of nine in the first round from a hard blow to the face, which slowed the colored fighter up considerably. He hit the canvas again in the third and fifth rounds. Von Redon displayed a real nifty attack and showed that he had a dynamite wallop in each hand. He centered his attack on Rash's face and also did considerable damage to his body. Rash's main factor in trying to overcome his opponent was his famous kidney punch, used to advantage at close range.

The fans were disappointed when "Red" Edgerton, sentenced to meet Rash, did not appear in the ring. They booed Announcer George Auburn Brown when he announced Von Redon would sub for the flashy little redhead. However, the former Navy scrapper, who holds three prize belts in the sailors' class, put up a better appearance against Rash, it is thought, than "Red" Edgerton could have. Charles Von Redon put Edgerton out in two rounds last year when the two met at Fort Schuyler in an Army vs. Navy affair. The fans approved the match at the end of the tilt by applause that echoed through the drill shed.

The feature event, although it pleased, was not as colorful as the semi-final. Frankie Konchina, 157½, got the decision over the famous Larry Estridge, 158½, after six rounds of milling in which the latter showed little of his once famous action. Konchina punched Estridge's head constantly while the latter landed but few telling blows on Konchina. Estridge tried the south-paw method after the second round but could not puzzle the hard-hitting Konchina.

K. H. S. Won Last K.H.S. Inter-Class DUSO Game

Kingston High School varsity played its last DUSO League game of the season Friday at Middletown when it defeated the Middies, 24-14. Kingston led at the end of the first half, 9-7. In the second half the local quintet showed much action by scoring 15 points while the Middletown team corralled seven.

Maroon did the best scoring for Kingston with 10 points, followed by Joyce who scored eight. Freehill did the major point collecting for the Middies with six markers.

A. A. U. CHAMPIONSHIP IN MADISON SQUARE GARDEN.

New York, Feb. 25 (P).—Track stars from all parts of the country are entered in the National A. A. U. championships in Madison Square Garden tonight with fifteen events down for competition. The list of performers includes many prospects for the American contingent in the forthcoming Olympics at Amsterdam.

The world's record breaking 1,600 yard run by Ray Conner in winning over Lloyd Hahn at Kansas City last Saturday night has installed Conner the favorite in the 1,600 yard championship. Conner's rivals will include Phil Edwards of New York University, Frankie Sobor, Sam Martin, Leo Larrivee, Chicago A. A., and Sid Robinson, the former Mississippi A. A. star. The accepted world record for this event is 2:12.45, made by Hahn in winning the championship last year.

At the Kingston High School gym Friday afternoon three inter-class League games were played. The Junior A defeated the Begin Fresh, C, 16-8. The Begin Fresh B was defeated by the Junior B, 32-7, and the Senior B triumphed the Sophomore C, 12-7.

CALIFORNIA IRISHMAN BEATS GHOST OF THE GHETTO

New York, Feb. 25 (P).—Jimmy McLarin has conquered Sid Terris, the rollicking ghost of New York's Ghetto. It required less than a round for the California Irishman to safely stow away his adversary and thus become the foremost challenger for the world's lightweight championship now held by Sammy Mandell.

McLarin displayed more than his body face before some 18,000 spectators in Madison Square Garden last night. He exhibited two sweeping drives with a sturdy right arm, one of which fell with terrific force on his opponent's chin, sending him to the canvas to be counted out one minute and 47 seconds after the fight began.

The startling finish was followed by a great demonstration for the Los Angeles brawler who was carried through the cheering throng to his dressing room on the shoulders of admirers.

PENNSY OUTFITS ARE SUCCESSFUL

Ball Players Won Quadrangular Cup Second Time.

University of Pennsylvania athletic teams met with a fair amount of success during the year 1927, according to the records of the 16 varsity teams in the field. One championship was won, the Red and Blue baseball players gaining the quadrangular cup for the second time in the three years that the trophy was contested for.

The baseball team had one of the most successful campaigns ever experienced by a Pennsylvania team. Under the tutelage of Dr. Walter Clark it triumphed in twenty games, lost five and tied one.

During 1927 fourteen Pennsylvania teams won ninety-four dual contests, lost seventy-one and tied three for an average of 56.9 per cent. This record excludes the performances of the track and crew, most of whose engagements were against more than one opponent.

The football team won six contests, four of them with major opponents. During its very difficult schedule it defeated Brown, Harvard, Columbia and Cornell, in addition to Franklin and Marshall and Swarthmore, and lost to Penn State, Navy and Chicago.

The 1927-28 basketball team triumphed in sixteen of its twenty-six struggles. Victories over Syracuse, Navy, Lafayette, Penn State and Dartmouth were highlights of the season. The team finished in a tie for third place in the Eastern Intercollegiate league.

Chicago May Be Site of Olympic Games in 1933

Chicago may be the site of the Olympic games in 1933 as a feature of the world's fair it negotiations started recently prove successful. Charles S. Peterson, city treasurer and vice president of the fair committee, is the man responsible for the idea. He has just recently sent a letter to Sigfrid Edstrom, manager of the Olympic games committee, which gives many reasons why Chicago would be suitable for the games.

It is possible that Edstrom will consider the plan feasible and come here to make a final decision on the selection of Chicago for the Olympics, or that he will ask that a committee be sent to him to discuss the proposal. The next Olympic games are to be held this year, and as they are scheduled to be staged every four years, the games following this year's would be booked for 1932. Therefore, it would be necessary to postpone them for one year, so that they might be held in conjunction with the fair at Chicago in 1933.

Water Legs Are Needed for Cycling on Channel

Rhythmic leg motion is the most difficult requirement in propelling the hydrocycle of Rene Savard, French "flying fish."

Savard, who intends to pedal the craft across the English channel, has been practicing a leg motion to balance the movement of the waters, in order to develop the sort of pedaling style a bicyclist would need if the earth moved out from under him in unexpected twists and jerks.

The hydrocycle built by Savard is a water bicycle, propelled by two paddle wheels.

Trojan Ball Squad Turns Out Strong

Baseball on Board field of the University of Southern California is getting to be a big business, with over 60 men reporting regularly. Coach "Wahoo" Sam Crawford, former Detroit fence-buster, believes that prospects are fairly favorable for a good showing in the California Intercollegiate league.

Last year the Trojans took second to St. Mary's college. The nine will leave Los Angeles on May 8 for a six weeks' trip to Japan, Korea and Hawaii. Fifteen players will be taken.

Out for Olympics

The photograph shows Gifford Hoffman, winner of the discus event at the intercollegiate 4-A meet in Philadelphia in 1927 with a distance of 227 feet 7 inches, who was chosen by Dan Ferris, secretary-treasurer of the A. A. U. as discus thrower on the All-American track team. Hoffman is also one of the outstanding candidates for the Olympic team.

Add Modern Complexities

New developments generate new crimes. The pencil seller who was arrested for assaulting a man who refused to buy will be charged. It is thought, with "feloniously attempting to overcome sales resistance"—Boston Transcript.

Facts for the Baseball Fans

New York, Feb. 25 (P).—With the departure of a band of Yankees for the sunny south led by Babe Ruth and Lou Gehrig, the famous home-run sluggers, most of the players of the major league clubs of the Metropolitans are either headed for or are already in spring training quarters.

The Yanks camp is pitched at St. Petersburg, Fla. Ruth, Gehrig, catchers John Grabowski and Bill Eismann, and infielder Leo Durocher left New York last night. Twenty-three Yanks are due to start training on Monday.

From Brooklyn the Robins are heading their way to Clearwater, Fla., where Manager Wilbert Robinson is having difficulty in signing Dizzy Vance, the speedball king.

The prolonged cold spell continues to keep the Giants off the diamond at Hot Springs, Ark. The injury to Leo Mangum's left knee has confined the former Buffalo pitcher to his hotel room. He twisted his knee mountain climbing several days ago.

Pittsburgh, Feb. 25 (P).—Five players, forming the second contingent of Pittsburgh Pirates, were en route today to their Paso Robles, California, spring training camp, where they will join the battery men who have been training for several days. The second squad which left here last night was headed by Captain Pie Traynor.

Boston, Feb. 25 (P).—Two Boston baseball managers took their teams in hand yesterday and when they had finished, the one in the club house and the other on the field, they had imparted a lot of spirit to a flock of hustling candidates and veterans as well.

As a result the Red Sox at Bradenton and the Braves at St. Petersburg, Fla., went through their snappiest workouts yet and caused officials of both aggregations to wax enthusiastic over their respective outlooks.

Manager Bill Carrigan of the Sox called the boys into the club house and told them a few things about the spirit of fight and then sent them charging onto the field like firemen responding to an alarm.

Over at St. Petersburg, five days of ideal conditions saw the squad in excellent condition, and there wasn't a sore arm on the lot.

COLLEGE TRIANGULAR TRACK MEET IN BRANTOWN TONIGHT.

Boston, Feb. 25 (P).—Harvard, Dartmouth and Cornell were primed for their annual triangular indoor track meet here tonight and although past performance made each equally likely as a winner, the Dartmouth and Green were favored while the men from Ithaca figured as dark horses.

The meet is to be run off at the Arena where for the first time in 30 years spectators will be treated to the running broad jump indoors and the pole vault for the first time in the history of the triangular meet.

Eac contesting college has been thrice victorious in past competition. Harvard this year was a fighting team and for that reason ranks perhaps a slight edge on Dartmouth which, however, possesses the formidable Monty Wells, captain and intercollegiate hurdle champion.

Wells has been on crutches since his unfortunate fall at the recent New York A. C. games and he accompanied the squad to town in that condition but with the determination to participate if it is in any way possible. Even lacking Wells, Dartmouth has a well rounded team and the enforced absence of its captain has not been reflected appreciably in sentiment governing speculation concerning the outcome of the meet.

Cornell is regarded strong in the weights and distance, runs but its great relay team of a year ago has been shot to bits. Despite that, the Ithacan aggregation of 40 men was believed to hold considerable potential danger to both other contenders especially in view of the fact that Cornell, although it had not won since 1924, has been a runner up to Harvard for the past two years.

The Crimson team is favored in having more men back from last year than either of its opponents.

IMMANUELS MAKE RECORDS IN CITY BOWLING LEAGUE.

In defeating the Livingstons three consecutive City League games at the church alleys Friday night, the Immanuels made two records. The team registered a record high score for a single game in the final tilt by spilling the maples for 941 points and aggregated a total of 2,739 for the three games rolled. Captain Al Studt gave the bowlers a lesson in point collecting by scoring 667 points. Gronemeyer did the best work for the Livingstons by scoring 496 points. At the end of the contest the Immanuels were out in front by 550 pins.

Era Computations

The Mohammedan era begins July 16, 622 A. D. In making computations, therefore, this sum should be subtracted from the commencement of the Christian year to find a Mohammedan date.

Oppression Not Peace

I am a man of peace. God knows how I love peace; but I hope I shall never be such a coward as to mistake oppression for peace.—Kooruth.

Breaks All Records

Wade Morton of Philadelphia looked supremely content after smashing the world's record for stock cars with his Auburn auto at the race track at Daytona Beach, Fla. (International Newsphoto.)

LAST NIGHT on the RADIO

Reception has not often been better than it was the greater part of Friday evening. Even WGY behaved mist of the time and WJZ did not fade very much. The soap program was especially good. Chicago stations were very strong and clear, with KTW and WCFL exceptionally so. This excellent reception followed an all day buzz that did not stop until shortly before 6 o'clock and was on again this morning at 7.

CHANDLERS TO MEET CATSKILL HERE TONIGHT

The Chandlers will meet the Catskill High School varsity at 7 o'clock this evening on the Y. M. C. A. court. The latter team recently defeated the Poughkeepsie High School team at the Greene county court and feel confident of scoring a win over the local team tonight. The Chandlers hold one win over the Catskill team and plan on adding another victory to their column. A small attendance will be charged for the game. A large attendance is expected as each team has a big following.

Tough on Zeke

"Zeke," said the judge to an old offender, who had been convicted of stealing a lug, "you are fined \$10." "Judge," said Zeke, "I'm much obliged to you. I've got dat ten-spot right here in mah left-hand vest pocket." "Is that so?" continued the judge. "Just dip down in your right-hand vest pocket and see if you can find thirty days."

Pooh!

Marie was very enthusiastic regarding the new minister, and young Will thoughtfully was inclined to be jealous. "Oh, he is superbly eloquent!" cried Marie. "He can move his hearers to tears." "That's a poor accomplishment," said Will thoughtfully, sarcastically. "I would scorn proficiency in an art in which every sneeze is my equal and every peevish opinion my superior."

Elaborate Report Submitted to the Board of Education by Superintendent Michael—Only a Little Routine Business Transacted at Monthly Meeting.

A regular meeting of the board of education was held Friday evening at the offices of the board in the high school. All members but Trustee Terry were present. Routine business was transacted.

Trustee Fowler, for the Finance committee, offered the payroll for February amounting to \$29,166.65, and bills amounting to \$2,524.43 were audited and ordered paid.

The finance committee was authorized to audit vouchers for payment of interest due April 1 on school bonds, and the clerk was authorized to draw warrants for same. This action was necessary as the next meeting of the board is on March 30 and the interest is due April first.

A bill amounting to \$39 for rental of a piano used in the office of the music director at the high school was approved by the board. This piano was rented prior to the purchase of a piano.

Trustee Fowler, for the building committee, recommended that the matter of placing a vent pipe in the chemical laboratory to carry off foul gas formed through chemical experiments, be deferred until the summer vacation period. Adopted.

The supplies committee suggested that filing cabinets be erected in the high school for filing papers. This work will cost but little in excess of \$100 for material. Adopted.

Mrs. Betz, for the supplies committee, reported that pianos authorized by the board had been purchased.

The matter of the condition of the school yard at No. 6 School was brought to the attention of the board. In way of water there is a great deal of mud and water about the place. This matter had previously been brought to the attention of the board and the janitor has been using available ashes to relieve the condition. As this method of relief evidently was not working out well the building committee was asked to look over the situation and report.

The condition of the sidewalk at the junction of the concrete walk in front of the high school and the adjoining property owned by the O'Reilly estate was brought to the attention of the board. The flag walk has been taken up and never been replaced. When the concrete walk was laid in front of the high school the bluestone walk was taken up by the contractor. At that time it became known that the stones were stored at the rear of the high school lot and were later removed by the owners. The stones which joined on the high school lot were taken away and are not now available to be replaced. In wet weather the depression makes a dangerous condition. As the board no longer has possession of the stones which

came from the depression and as the walk is on the O'Reilly property, no action was taken. Trustee Fowler stated that the condition was dangerous and should be remedied before someone is injured and brings an action.

Superintendent Michael submitted the following report and the board adjourned.

Report of Superintendent Michael.

**The Week in
Wall Street**

New York, Feb. 25 (AP)—Fluctuating out of speculative peaks constructed by pool operations continued in the stock market this week, giving it the appearance of irregularity most of the time. Most of the standard industrials offered strong resistance to selling pressure, and a few moved higher, but weakness cropped out in a number of specialties. Rails, which had been fairly well liquidated earlier in the week, moved up smartly towards the close of the week.

Brokers' loans continued to play a prominent part in discussions regarding the future of the market. The weekly Federal Reserve bank statement, issued after the close on Thursday, showed a reduction of more than \$91,000,000, one of the largest in the last two years, but the total is still nearly a billion dollars above a year ago. Many commission houses and traders lean to the theory that a further substantial contraction in loans is necessary in order to restore confidence in the market.

Sluggishness of United States Steel common, which repeatedly dipped below 140, was a source of disappointment to operators for the advance who expected it to move upward on the announcement of higher prices of heavy steel products. General Motors received better support but appears to meet stiff opposition on all bulges. The Department of Commerce reported January production of automobiles had exceeded every month since last September, but it was below that of any January since 1922. Hudson was one of the few strong spots in the motor group.

Announcement of a proposed 100 per cent stock dividend on Vacuum Oil and unconfirmed reports that Sinclair might be merged with Prairie temporarily revived flagging interest in the oil shares, which have been in the doldrums for months as a result of continued over-production in crude. Considerable importance also was attached to the revision of Mid-Continent prices, resulting in higher prices for the lighter grades and lower prices for the heavier grades of crude.

Express shares turned weak on the traditional "selling on the good news" following reports that banking groups had acquired control, presumably for the account of railroads. Selling pressure also was effective against International Nickel, Wright Aeronautical, U. S. Cast Iron Pipe, U. S. Rubber issues, and a number of others.

The rally in the rails was associated with unconfirmed reports that the eastern trunk line executives had reached an agreement whereby L. F. Loree had consented to abandon his proposed fifth trunk line system and to turn over his Wabash road to one of the other eastern systems on terms favorable to stockholders.

Traffic reports continued to make unfavorable comparison with last year.

Szabo Bankruptcy Petition.

New York, Feb. 25.—Peter Verities of Kingston, N. Y., is listed as a creditor holding an unsecured claim for \$2,750 in the petition in bankruptcy filed in Federal Court here today by Joseph Szabo, a laborer of Kingston. Other Kingston creditors are Weber & Walter, \$364; Edward T. Gill, \$240 for coal; Kingston Coal Company, \$196. The bankrupt lists his total liabilities at \$8,854 and assets at \$1,750. V. B. Van Wageningen of Kingston is attorney for Szabo.

When Peanut Roaster Starts.

James G. Foundas, of 167 Green street, the peanut, chestnut and popcorn distributor at the State of New York National Bank, corner Wall and John streets, who has been spending several weeks in Pennsylvania, Virginia and North Carolina, visiting fellow countrymen from Greece and incidentally contracting for shipments of chestnuts next fall, has returned. He expects to start up his peanut roaster about March 17.
